

Ahmed AbdelNaem Elshora

Cairo, Egypt | +201050815073 | Elshoraa14@gmail.com

SUMMARY

As a dedicated Flutter Developer, I bring expertise in creating cross-platform mobile applications that deliver a seamless and engaging user experience. With a strong foundation in Dart programming and extensive knowledge of Flutter, I have successfully contributed to the development of innovative and user-friendly mobile apps.

EDUCATION

2023 **Egyptian E-Learning University, Menoufia,**
Egypt Major: Information Technology
Program

WORK EXPERIENCE

- 2022 – 2023** **A two-month Flutter internship at Instant Software Solutions**
This internship experience at Instant Software Solutions provided valuable insights into Flutter app development, allowing me to contribute to real-world projects and develop essential skills in mobile application development.
- 2023 – 2024** **I created with my student in the university graduation project an application for early detection and rapid treatment methods for tilapia fish diseases using only the phone camera and previous photos.**
- 2023 – 2024** **Then I created many applications, such as an application for booking movie tickets, an application for books, “Bookly,” the game “Tic Tac,” and many others.**
<https://github.com/A7medElshora>
- 2024** **I participated in creating other graduation projects for two groups in the faculty of Computers and Information Technology, Menoufia University**
1- An application to detect palm diseases
2- An application for detecting breast cancer
The two applications obtained positions among the top 5 graduation projects at the university
- 2024** **I created an application for a Saudi company “معاهد. كوم” and the application was uploaded to Google Play under the name “معاهد كوم”**
